

Liaison Messenger[®] DD

The Automated Forms Server for Dynamics GP

For

Microsoft Dynamics GP

Key Features

- Transmit via email or print (to Payroll printer only) secure, password protected, Direct Deposit Statements.
- Route forms to any e-mail address, fax number, or printer based on variable data within the form.
- Messenger is 100% software driven. So deployment and maintenance is simple, inexpensive and portable.

Auto-archive Payroll Statements

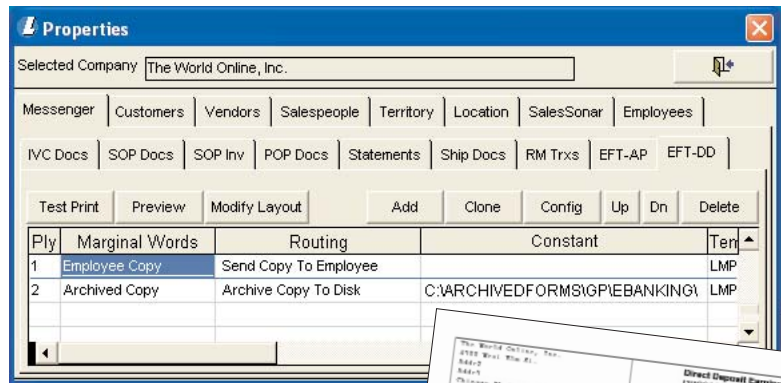

- Easily retrieve archived, password protected, Payroll Statements.

Automatically email or print...

- Direct Deposit Statements once they have been processed in the Dynamics GP payroll module.

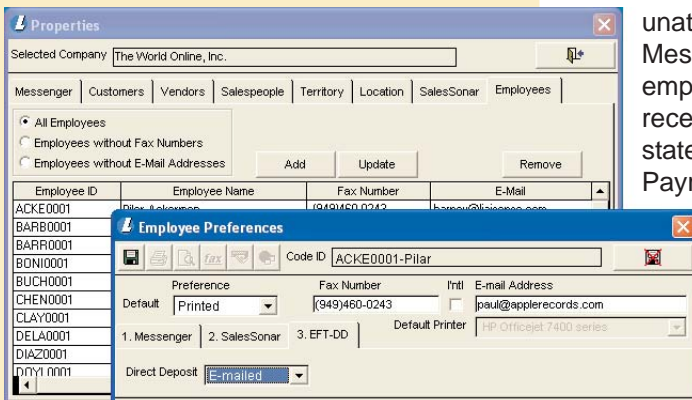

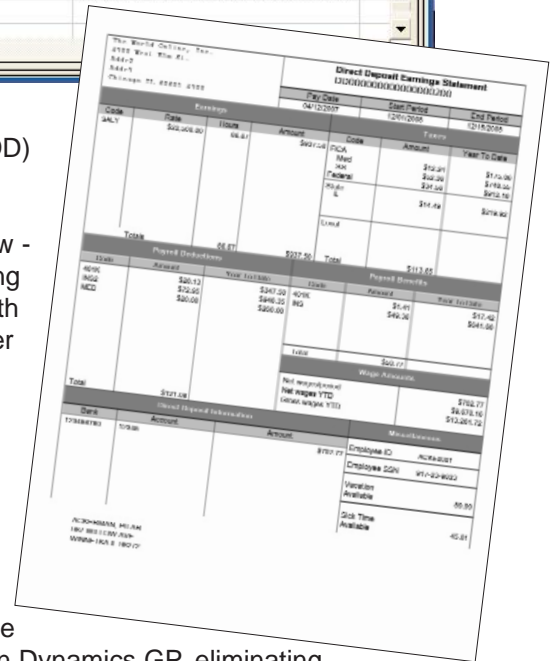

Eliminate...

- Manual print procedures
- Manual emailing
- Folding, stuffing, sealing envelopes and postage! Messenger DD can cut these costs by \$ 0.50-0.80 per Payroll statement sent.

Messenger[®] Direct Deposit (DD) is the newest add-on to our popular Forms Automation Server that adds true workflow - printing, emailing and archiving to your Payroll Statements with no additional hardware or user intervention.

Automatically process Payroll Statements by request or on a scheduled basis for unattended processing. Messenger DD stores the employee's preference for receiving their Payroll statement (print or email) once Payroll has been processed in Dynamics GP, eliminating manual distribution.

Set employee preferences individually allowing you to transmit each Direct Deposit Statement independently from the next - printed and emailed automatically!

System Requirements:

- Dynamics GP Payroll module
- Emailing requires one license of Outlook
