

Liaison Messenger EFT[®]

The Automated Forms Server for Dynamics GP

For

Microsoft Dynamics GP

Key Features

- Automatically e-mail, Fax, Print, and Archive EFT Notifications.
- Route forms to any e-mail address, fax number, or printer based on variable data within the form.
- Automatically archive EFT notifications by vendor
- Easy to install and configure - Messenger automatically detects the current version, installed modules, comp. datasets, and location of GP data files. It's simple & intuitive.
- Messenger is 100% software driven. So deployment and maintenance is simple, inexpensive and portable.
- Utilize the built-in WYSIWYG form design tool.
- Create new, industry specific, or unique forms for certain vendors and generate them during standard forms printing.
- Print to any printer on the network, including remote printers via Citrix, WANs, or TCP/IP by form and/or by ply.
- Easily add additional Dynamics GP information onto your EFTnotice.

Automatically email or fax..

- EFT transmission notices once they have been processed in Dynamics GP.

Eliminate...

- Manual print procedures if unattended processing is turned on.
- Manual emailing and faxing
- Folding, stuffing, sealing envelopes and postage! Messenger EFT can cut these costs by \$ 0.50-0.80 per notice sent.

Ply	Marginal Words	Routing	Template	Custom	Const
1	Vendor Copy	HP 4050(White) - Tray 1	LMP2EB01		
2	Archive Copy	Archive Copy To Disk	LMP2EB00		C:VAR
3	File Copy	HP 4000 - Accounting	LMP2EB00		

Configure your business form rules by ply for each form and let Messenger do the rest!

Liaison Messenger EFT is a Forms Automation Server that adds true workflow, routing, faxing, e-mailing and archiving of your EFT notifications with no additional hardware or user intervention.

Automatically process EFT notifications by request or on a scheduled basis for unattended processing. Messenger EFT stores the vendor's preference for receiving their notification and once their electronic funds transfer has taken place in Dynamics GP delivers the notice to the Vendor, eliminating all manual faxing and emailing.
